

Vertical Sysadmin offers LPIC-1 training and certification

The Linux Professional Institute (LPI) LPIC-1 is the first IT certification program to be professionally accredited by National Commission For Certifying Agencies. It is the junior level Linux certification.

Overview of Tasks

To pass Level 1, someone should be able to:

- Work at the Linux command line
- Perform easy maintenance tasks: help users, add users to a larger system, backup and restore, shutdown and reboot
- Install and configure a workstation (including X) and connect it to a LAN, or a standalone PC to the Internet.

Exam 101

This is a required exam for LPIC-1. It covers basic skills for the Linux professional that are common to major distributions of Linux.

Exam 102

This is a required exam for LPIC-1. It covers basic skills for the Linux professional that are common to major distributions of Linux.

Email us at hello@verticalsysadmin.com to arrange an LPIC-1 class or cert exam.
